router trimmable

DesignDynamics

SINTRA / E-PVC / KOMATEX

POP DISPLAY / RIGID SIGNAGE

RECOMMENDED FOR

- ✓ Rigid outdoor signage that is waterproof and won't yellow
- ✓ Can be router cut
- ✓ Dent and moisture resistant
- ✓ Multi-color availability
- ✓ Multiple thicknesses (1, 2, 3, 6 and 13 mm)

WATCH OUT

- ✗ Not intended for long-term outdoor (>1 year)
- ✗ Dark colors will warp under high UV exposure
- ✗ 3 mm is less rigid than foam-based substrates of the same thickness
- ✗ 6 and 13 mm is heavy and requires special mounting compared to foam-based boards
